

c-Jun (Phospho-Thr239) Antibody

#11024

Catalog Number: 11024-1, 11024-2

Amount: 50µg/50µl, 100µg/100µl

Swiss-Prot No. : P05412

Form of Antibody: Rabbit IgG in phosphate buffered saline (without Mg²⁺ and Ca²⁺), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.

Storage/Stability: Store at -20°C/1 year

Immunogen: The antiserum was produced against synthesized phosphopeptide derived from Human c-Jun around the phosphorylation site of threonine 239 (G-E-T_P-P-P).

Purification: The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific phosphopeptide. The antibody against non-phosphopeptide was removed by chromatography using non-phosphopeptide corresponding to the phosphorylation site.

Specificity/Sensitivity: c-Jun (phospho-Thr239) antibody detects endogenous levels of c-Jun only when phosphorylated at threonine 239.

Reactivity: Human, Mouse, Rat

Applications:

Predicted MW: 43kd

WB: 1:500~1:1000 IHC: 1:50~1:100 IF: 1:100~1:200

UV - +

Western blot analysis of extract from HeLa cells untreated

or treated with UV using c-Jun (phospho-Thr239) antibody(#11024).

Immunohistochemical analysis of paraffin-embedded human breast carcinoma tissue using c-Jun (phospho-Thr239) antibody (#11024).

Immunofluorescence staining of methanol-fixed HeLa cells using c-Jun (phospho-Thr239) antibody (#11024, Red).

Background :

Transcription factor that recognizes and binds to the enhancer heptamer motif 5'-TGA[CG]TCA-3'.
